Max site size: 15ha**

11 Conveyancing Searches : 110+ Million Reasons to Choose Avista

ClimateIndex™

- Property specific, weighted sum model for reporting periods. Provides an effective, balanced forward climate risk scenario for flood, subsidence & coastal erosion risks
- Projects changes in physical risks from flooding, natural ground instability and coastal erosion
- Clear, concise index ratings and guidance enabling rapid identification of any risk to support client care
- Time periods assessed in alignment with Prudential Regulatory Authority and Bank of England
- Compliance ready for future guidance note changes

Full Mining Search

- Everything you will find in a GeoRisk/GeoRisk + report (where applicable):
- Mining (coal) - CON29M
- All other mining such as tin, chalk, limestone and all other minerals
- A Cheshire Salt Search

Avista

The most comprehensive environmental search report available - now with ClimateIndex™

Intuitive Design

- A brand new, intelligent dashboard cover page
- Intuitive and dynamic front page design - making it easy to locate vital information in the report
- The new design creates the best possible communication and arrangement of outcomes for each individual property with results dynamically ordered and tailored to suit each case
- Key results or informatives for your client are clearly indicated at the top of the page
- Individual search findings are presented within the categories of **Key results**, **Informatives** or as **Also searched**
- Providing a clear and easy to follow summary for you and your client which will mean huge time savings in interpreting results and seeing next steps

Key Features

- Avista combines 10 environmental and geological searches in one, including 10 years of planning applications
- ClimateIndex™ - Forward climate scenario modelling for flood, subsidence & coastal erosion risks. Enables you to be compliance-ready for any future lender reporting requirements
- Flood risk assessment - River, coastal, surface water and groundwater at 5m resolution
- Floodscore™ - gives an indicative assessment of the potential insurance risk classification from flooding
- Based on Land Registry polygon data for the highest level of accuracy
- Unique and intelligent Avista Action Alert case management tool
- Utilising the environmental expertise of over 30+ in-house qualified consultants in one environmental search report
- In-depth energy and transportation data including current and historic rail, subway and tram tunnels and features, together with renewable and other energy existing and proposed developments
- Real world ground movement data provided by SatSense
- Natural ground stability data
- Sinkholes information
- Coastal erosion

Key Benefits

- Supports compliance with 2 Law Society practice notes, UK finance lenders handbook guidance for ground stability and compliance-ready for forward climate risk due diligence
- Clear, accurate risk identification and next steps for your client

Avista

The most comprehensive environmental search report available - now with ClimateIndex™

Key Benefits (continued)

- Improved accuracy - using Land Registry Title polygons so it captures all features within the specific property and boundary
- Transparent information and plain English homebuyer friendly explanations make any risks and next steps clear
- The Avista Action Alert supports your case management by highlighting which reports could need more attention for your client
- Powered by the Groundsure IQ - 110 million data points managed by our unique AI algorithm, intelligently filtered and supported by our in-house consultancy expertise
- The report uses the National Brownfield Risk Model and the Groundsure National Mining And Stability Risk Model find out more at www.groundsure.com/nbrm

Unbeatable clarity with the Avista Action Alert

The unique and intelligent Avista Action Alert presents easy to follow 'next step' strategies, whatever the outcome of your report. Designed with conveyancers in mind, our advanced alert improves case management, helping prioritise work at a glance.
